- [Digital Advertising Alliance of Canada \(Canada\)](#)

Users of mobile applications may opt out of receiving targeted advertising in mobile applications through participating members of the Digital Advertising Alliance by installing the AppChoices mobile application, available [here](#), and selecting the user's choices. In addition, your mobile device settings may provide functionality to limit our, or our partners', ability to engage in ad tracking or targeted advertising using the Google Advertising ID or Apple ID for Advertising associated with your mobile device.

Please note that we also may work with companies that offer their own opt-out mechanisms and may not participate in the opt-out mechanisms that we linked above.

If you choose to opt-out of targeted advertisements, you will still see advertisements online, but they may not be relevant to you. Even if you do choose to opt out, not all companies that serve online behavioral advertising are included in this list, and so you may still receive some cookies and tailored advertisements from companies that are not listed.

E. Children's Information

Our Services are not aimed at children. We do not knowingly collect personal information from children under the age of 18. F. Disclaimer of Links to Other Websites

Our Services may contain links to other websites or applications. This Notice only applies to the Services that link to this Notice and not to any other website or application. We are not responsible or liable for any content, advertising, products, or other materials on or available from third party websites or for any privacy or other practices of the third parties operating those websites. We encourage you to carefully read the privacy notices of any third-party website or application before you provide your personal information to those third parties.

G. Do Not Track Signals

Your browser setting may allow you to automatically transmit a "Do Not Track" (DNT) signal to websites and online services that you visit. There is no consensus among industry participants as to what DNT means in this context, and some browsers automatically apply DNT signals by default and therefore do not necessarily reflect our visitors' choice as to whether they wish to receive advertisements tailored to their interests. As a result, like many websites and online services, we do not alter our practices when our Services receive a DNT signal from a visitor's browser. To find out more about DNT, please visit <http://allaboutdnt.com>. Note that DNT is different than the Global Privacy Control (GPC), which we do respond to in certain territories, such as California. To find out more about GPC, please visit <https://globalprivacycontrol.org>.

11. Changes to this Notice

From time to time, we make updates or changes to this Notice because of changes in applicable laws or regulations or because of changes in our personal information practices. We will notify you of any material changes impacting your personal information. Where consent is necessary to make a change apply to our practices concerning your personal information, we will only apply the changes to your Personal Information once we have that consent.

You can see when this Notice was last updated by checking the date at the top of this Notice.
